#### INDEPENDENT AUDITOR'S REPORT

Honorable County Judge and Commissioners' Court of Lampasas County Lampasas, Texas

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lampasas County, Texas, (the "County"), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the County, as of September 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

1

TEXAS | Waco | Temple | Hillsboro | Houston

**NEW MEXICO** : Albuquerque

#### Emphasis of Matter - Change in Accounting Principle

As described in the notes to the financial statements, in fiscal year 2021 the County adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities. Our opinion is not modified with respect to this matter.

#### Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension and other post-employment benefit information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements are fairly stated in all material respects in relation to the financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 31, 2022, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Patillo, Brown & Hill, L.L.P.

Waco, Texas August 31, 2022 MANAGEMENT'S DISCUSSION AND ANALYSIS THIS PAGE LEFT BLANK INTENTIONALLY

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial Report, we, the managers of Lampasas County, Texas (the "County") discuss and analyze the County's financial performance for the fiscal year ended September 30, 2021.

#### **FINANCIAL HIGHLIGHTS**

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources as of September 30, 2021, by \$18,293,511.
- As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$10,837,205. Of this total amount, 65% or \$7,017,212 is available for spending at the government's discretion (unassigned and assigned fund balance). Fund balance of \$3,740,714 is restricted for capital projects and other purposes specified by third parties.
- As of September 30, 2021, fund balance for the General Fund was \$7,152,254.

#### **USING THIS ANNUAL REPORT**

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These provide information about the activities of the County as a whole and present a long-term view of the County's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the County's operations in more detail than the government-wide statements by providing information about the County's most significant funds. For governmental activities, these statements tell how services were financed in the short-term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. The fiduciary statements provide financial information about activities for which the County acts solely as a trustee or agent for the benefit of those outside of the County.

The Notes to Basic Financial Statements provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining schedules for nonmajor governmental funds and fiduciary funds contain even more information about the County's individual funds.

**The Statement of Net Position and the Statement of Activities** – The analysis of the County's overall financial condition and operations begin on page 8. This shows whether the County's financial condition is better or worse as a result of the year's activities. The Statement of Net Position includes all of the County's assets, deferred outflows of resources, and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the County's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The County's revenues are divided into those provided by outside parties who share the costs of some programs and revenues provided by the taxpayers or other unrestricted sources (general revenues). All of the County's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the County's net position and changes in them. The County's net position (the difference between assets, deferred outflows of resources, and liabilities) provide one measure of the County's financial health, or financial position. Over time, increases or decreases in the County's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the County, however, you should consider nonfinancial factors as well, such as changes in the County's property tax base and the condition of the County's facilities.

In the Statement of Net Position and the Statement of Activities, we report the following type of activities:

 Governmental activities – All of the County's basic services are reported here. Property and sales taxes and state and federal grants finance most of these activities.

# REPORTING THE COUNTY'S MOST SIGNIFICANT FUNDS

**Fund Financial Statements** – The fund financial statements begin on page 10 and provide detailed information about the most significant funds, but not the County as a whole. Laws and contracts require the County to establish some funds to separately account for restricted resources. The County's administration establishes other funds to help it control and manage money for particular purposes (capital projects). The County reports the following fund types:

Governmental Funds – All of the County's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the County's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in the reconciliation schedules following each of the fund financial statements.

#### THE COUNTY AS TRUSTEE

Reporting the County's Fiduciary Responsibilities – The County is the trustee, or fiduciary, for money on behalf of others. All of the County's fiduciary activities are reported in the Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position on page 16 and 17. We exclude these resources from the County's other financial statements because the County cannot use these assets to finance its operations. The County is only responsible for ensuring that the assets reported in these funds are used for their intended purposes. During the fiscal year, the County implemented Government Accounting Standards (GASB) Statement No. 84, Fiduciary Activities.

# **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Our analysis focuses on the net position (Table I) and changes in net position (Table II) of the County's governmental activities.

The County's net position was \$18,293,511 at September 30, 2021. The largest portion of the County's net position of \$9,781,154 reflects its investments in capital assets (e.g. land, buildings, machinery and equipment, infrastructure), less accumulated depreciation and any related outstanding debt. An additional portion of the County's net position of \$2,692,349 represent resources that are subject to restrictions on how they may be used for records management, road and bridge, judicial and public safety. The remaining balance of unrestricted net position of \$5,820,008 may be used to meet the County's ongoing obligations to citizens and creditors. The net position increased by \$1,347,722 or 8% primarily as the result of an increase in revenue due to property and sales tax.

#### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As the County completed the year, its governmental funds reported a combined fund balance of \$10,837,205, which is an \$1,203,268 increase from last year's combined ending fund balance of \$9,633,937. Included in this year's total change in fund balance is an increase of \$1,685,561 in the General Fund balance due to an increase in property tax revenue, sales tax revenue, and intergovernmental revenue. Expenditures increased overall in the General Fund by \$737,569 compared to the prior year.

The Road and Bridge Fund had an increase in fund balance of \$194,338. The increase was primarily the result of the decrease in expenditures in the road and bridge function and a slight increase in property tax revenue.

The Debt Service fund is used to account for the accumulation of resources for, and payment of, general long-term debt principal and interest. On September 30, 2021, the fund had a total balance of \$19,708. The increase in this fund balance was due to the decrease in the principal and interest payments.

The Construction Fund is used to account for financial resources dedicated for the acquisition or construction of major capital facilities. Expenditures for construction projects include the jail and law enforcement center and resulted in the decrease in the fund balance of \$868,702.

# **GENERAL FUND BUDGETARY HIGHLIGHTS**

The County revised the General Fund budget during the year for increases in estimated revenues and expenditures. Actual revenues were more than final budgeted amounts by \$1,133,920, and actual expenditures were less than final budgeted amounts by \$681,818.

#### **CAPITAL ASSETS**

At the end of 2021, the County had \$27,435,426 invested in capital assets, including land, buildings, machinery and equipment, and infrastructure. More detailed information about the County's capital assets is presented in the notes to the basic financial statements.

Major capital asset events during the current fiscal year include the following:

- Construction was completed for the jail and law enforcement center
- Construction was completed on a new fire station

# (Table III) LAMPASAS COUNTY'S CAPITAL ASSETS

	Government				
	2021	2020			
Land Construction in progress	\$ 1,397,393	\$ 1,397,393 17,238,338			
Buildings Machinery and equipment	30,001,727 7,701,557 2,714,781	11,532,815 7,970,866 2,714,781			
Infrastructure Less: accumulated depreciation	( 14,380,032)	( 12,934,434)			
Total	\$ <u>27,435,426</u>	\$ <u>27,919,759</u>			

#### **DEBT ADMINISTRATION**

At the end of the current fiscal year, Lampasas County had \$21,666,966 in long-term liabilities outstanding versus \$22,058,369 in the prior year with the decrease related to bonds and tax notes. Other obligations include accrued vacation pay and other post-employment benefits. More detailed information about the County's long-term liabilities is presented in the notes to the basic financial statements.

# (Table IV) LAMPASAS COUNTY'S DEBT

	2021	2020
Bonds and tax notes	\$ 17,150,000	\$ 17,805,000
Premium	1,331,906	1,427,362
Capital leases	291,170	813,565
Notes payable	-	57,101
Compensated absences	106,784	106,745
Net pension liability	2,643,413	1,747,554
Net Other post-employment benefits liability	143,693	101,042
Total	\$ 21,666,966	\$ 22,058,369

#### **ECONOMIC FACTORS**

The Commissioners Court adopted the County's budget for the fiscal year ending September 30, 2022, on September 20, 2021. The budget was adopted based on estimated balances that would be available at the end of fiscal year 2021 and estimated revenues to be received in fiscal year 2022. During the current fiscal year, unassigned fund balance in the General Fund increased to \$5,282,521. For the County's General Fund, the 2022 budget did not utilize resources from these funds.

The 2021 property tax rate was \$0.6850/ 100 valuation. As a result of a 17.42% increased in assed value, the County expects tax revenue collected during the 2022 to increase 6.7% over collections for fiscal year 2021. Additionally, the County's budget anticipates all other sources of revenue will remain at approximately the same levels as fiscal year 2021.

#### **CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT**

The financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the County's finances and to show the County's accountability for the money it receives. If you have questions about this report or need any additional information, contact Lampasas County Auditor, Attention: Tragina Tallant, P. O. Box 231, Lampasas, Texas 76550.

# RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

# SEPTEMBER 30, 2021

Total fund balance, governmental funds			\$	10,837,205
Amounts reported for governmental activities in the Statement of Net Position are different because:				
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.				27,435,426
Other long-term assets are not available to pay for current-period expenditures and, therefore, are unavailable in the funds.  Property taxes  Court fines		480,066 397,505		
				877,571
Long-term liabilities (OPEB, net pension liability, compensated absences, and bonds) are not due and payable in the current period and therefore are not reported in the funds. Also, the premium on issuance of bonds and deferred resource outflows related to the net pension liability are not reported in the funds. A summary of these items are as follows:				
Long-term liabilities:				
Bonds payable	(	17,150,000)		
Premium	(	1,331,906)		
Capital leases	(	291,170)		
Net pension liability	(	2,643,413)		
Deferred resources related to pensions	`	927,316		
Net other post employment benefit liability	(	143,693)		
OPEB related deferred inflows	(	26,795)		
Deferred resources related to loss on refunding		2,052		
Compensated absences	(	106,784)		
Accrued interest payable	(	92,298)		
			7	20,856,691)

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

# FOR THE YEAR ENDED SEPTEMBER 30, 2021

Net change in fund balances - total governmental funds				
Amounts reported for governmental activities in the Statement of Activities are different because:				
Government funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.		( 484,333)		
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.				
Amortization of premium Repayment of principal of long-term debt	94,772 1,234,496	1,329,268		
Interest payable on long-term debt is accrued in the government-wide financial statements, whereas in the fund financial statements, interest expenditures are reported when due.		15,065		
Current year changes in certain long-term liabilities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.				
Compensated absences Net OPEB liability	( 39) ( 39,175)	( 39,214)		
Certain pension expenditures are not expended in the government-wide financial statements and recorded as deferred resource outflows. This item relates to contributions made after the measurement date. Additionally, a portion of the County's unrecognized deferred resource outflows and inflows related to the pension liability were amortized.		( 143,435)		
Revenues from property taxes, court fines, grants and notes receivable are not available to pay for current period expenditures, and therefore, are not reported in the funds.		( 532,897)		
Change in net position of governmental activities	\$.	1,347,722

### NOTES TO THE BASIC FINANCIAL STATEMENTS

SEPTEMBER 30, 2021

# I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The authority of county governments and their specific functions and responsibilities are created by and dependent upon laws and legal regulations of the Texas State Constitution and Vernon's Annotated Civic Statutes ("VACS"). Lampasas County, Texas (the "County") operates under a County Judge/Commissioners' Court type of government as provided by state statute. The financial and reporting policies of the County conform to generally accepted accounting principles ("GAAP") applicable to state and local governments. GAAP for local governments include those principles prescribed by the Governmental Accounting Standards Board ("GASB").

#### A. Reporting Entity

The Commissioners' Court has governance responsibilities over all activities related to Lampasas County, Texas. The County receives funding from local, state and federal government sources and must comply with the concomitant requirements of these funding source entities; however, the County is not included in any other governmental as defined by Governmental Accounting Standards Board. There are no component units (other governmental entities) over which the County exercises significant controls or has oversight responsibility.

The County provides the following services to its citizens: public safety (law enforcement and detention, fire and ambulance), public transportation (roads and bridges), health and welfare (indigent health care and indigent legal fees), judicial and legal, election functions, and general and financial administrative services.

#### B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the County's nonfiduciary activities. Governmental activities, which are supported primarily by taxes, fines and fees, grants and other intergovernmental revenues are reported as governmental activities.

The statement of activities presents a comparison between expenses and program revenues for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to a particular function. Program revenues include: a) fees, fines and charges paid by the recipients of goods or services offered by the program; and b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Interfund activities between governmental funds appear as due to/due from on the governmental fund balance sheet and as other resources and other uses on the governmental fund statement of revenues, expenditures, and changes in fund balance. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide statement of activities.

The fund financial statements provide reports on the financial condition and results of operations for two fund categories – governmental and fiduciary. Since the resources in the fiduciary funds cannot be used for County operations, they are not included in the government-wide statements. The County considers some governmental funds major and reports their financial condition and results of operations in a separate column.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide fund statements use the economic resources measurement focus and the accrual basis of accounting, as do the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recognized in the accounting period in which the fund liability is incurred, if measurable. Exceptions to this general rule include unmatured principal and interest on general long-term obligations which are recognized when due. This exception is in conformity with generally accepted accounting principles.

Property taxes, sales taxes, and fines associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Licenses and permits, forfeitures, and miscellaneous revenues are recorded as revenues when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned since they are both measurable and available.

Intergovernmental revenues are recorded on a basis applicable to the legal and contractual requirements of the individual grant programs. If funds must be expended on the specific purpose or project before any amounts will be paid to the County, revenues are recognized as the expenditures are incurred. If funds are virtually unrestricted and irrevocable, except for failure to comply with required compliance requirements, revenues are recognized when received or susceptible to accrual. Federal and state grants awarded on the basis of entitlement periods are recorded as intergovernmental receivables and revenues when entitlement occurs. All other federal reimbursable-type grants are recorded as intergovernmental receivables and revenues when the related expenditures are incurred.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

The County reports the following major governmental funds:

<u>General Fund</u> – The General Fund is the County's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund. The General Fund balance is available for any purpose, provided it is expended or transferred in accordance with the legally adopted budget of the County.

**<u>Road and Bridge Fund</u>** – The Road and Bridge Fund is a Special Revenue Fund that is used to account for resources used by the County in connection with providing transportation services to its citizens.

 $\underline{\textit{Debt Service Fund}}$  – The Debt Service Fund accounts for the accumulation of resources and payment of general obligation bond and principal and interest from governmental resources.

<u>Construction Fund</u> – The Construction Fund accounts for the construction of capital projects.

Additionally, the County reports the following fund type:

<u>Custodial Funds</u> – The County collects resources for others and then it is disbursed to the appropriate group or held in a custodial capacity. These resources include funds for individuals in accordance with court decrees by the State of Texas, other taxing entities within the County, and the County and District Clerk.

# D. <u>Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Fund Balance</u>

#### 1. Deposits and Investments

The County's cash and investments are considered to be cash on hand, demand deposits, and investment pools.

Investments for the County are reported at fair value, except for the position in investment pools. The County's investments in Pools are reported at the net asset value per share (which approximates fair value) even though it is calculated using the amortized cost method.

Chapter 2256 of the Texas Government Code (the Public Funds Investment Act) authorizes the County to invest its funds under a written investment policy (the "Investment Policy") that primarily emphasizes safety of principal, availability of liquidity to meet the City's obligations and market rate of return. The Investment Policy defines what constitutes the legal list of investments allowed under the policy, which excludes certain investment instruments allowed under Chapter 2256 of the Texas Government Code.

The County's deposits and investments are invested pursuant to the Investment Policy. The Investment Policy includes a list of authorized investment instruments and a maximum allowable stated maturity of any individual investment. In addition, it includes an "Investment Strategy" that specifically addresses limitations on instruments, diversification, and maturity scheduling.

The County is authorized to invest in the following investment instruments provided that they meet the guidelines of the Investment Policy:

- 1. Obligations of the United States of America, its agencies and instrumentalities;
- 2. Certificates of deposit issued by a bank organized under Texas law, the laws of another state, or federal law, that has its main office or a branch office in Texas, or by a savings and loan association or a savings bank organized under Texas law, the law of another state, or federal law, that has its main office or a branch office in Texas and that is guaranteed or insured by the Federal Deposit insurance or its successor or secured by obligations in a manner and amount provided by law for deposits for the County;
- 3. Money market mutual funds that are 1) registered and regulated by the Securities and Exchange commission, 2) have a dollar weighted average stated maturity of 90 days or less, 4) rated AAA by at least one nationally recognized rating service, and 4) seek to maintain a net position value of \$1 per share;
- 4. Local government investment pools, which 1) meet the requirements of Chapter 2256.016 of the Public Funds Investment Act, 2) are rated no lower than AAA or an equivalent rating by at least one nationally recognized rating service, and 3) are authorized by resolution or ordinance by the Commissioners Board.

The County participates in TexPool, which is a local government investment pool, established in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and operates under the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The State Comptroller oversees TexPool, with Federated Investors managing the daily operations of the pool under a contract with the State Comptroller. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The Advisory Board members review the Investment Policy and management fee structure.

#### 2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans).

All trade and property tax receivables are shown net of an allowance for uncollectible. Trade accounts receivable in excess of 60 days comprise the trade accounts receivable allowance for uncollectible.

Ad valorem property taxes attach as enforceable liens as of January 1. Taxes are levied prior to September 30, payable on October 1, and are delinquent on February 1. The majority of the County's property tax collections occur during December and early January each year. To the extent that it is considered available to finance current expenditures, property tax revenue is recognized in the governmental funds in the fiscal year for which it is levied.

#### 3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as expenditures when purchased.

#### 4. Capital Assets

Capital assets, which include land, buildings, machinery and equipment, and construction in progress, are reported in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition cost, which is the price that would be paid to acquire an asset with equivalent service potential at the acquisition date.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, machinery and equipment, and infrastructure of the County are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	32
Machinery and equipment	5-7
Infrastructure	10-20

#### 5. Compensated Absences

It is the County's policy to permit employees to accumulate earned but unused vacation. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

### 6. Long-term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses.

#### 7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statements element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has the following items that qualify for reporting in this category:

- Deferred loss on debt refunding A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Pension contributions after measurement date These contributions are deferred and recognized in the following fiscal year.
- Changes in actuarial assumptions related to the pension plan This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.
- Difference in expected and actual pension and OPEB experience This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows or resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has four types of items that qualify for reporting in this category.

- Unavailable revenue is reported only in the governmental funds balance sheet. These
  amounts are deferred and recognized as an inflow of resources in the period that the
  amounts become available.
- Changes in actuarial assumptions related to the OPEB plan This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.
- Difference in expected and OPEB plan experience This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.
- Difference in projected and actual earnings on pension assets This difference is deferred and amortized over a closed five-year period.

#### 8. Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Non-spendable: This classification includes amounts that cannot be spent because they
  are either (a) not in spendable form or (b) are legally or contractually required to be
  maintained intact. Non-spendable items are not expected to be converted to cash or are
  not expected to be converted to cash within the next year.
- Restricted: This classification includes amounts for which constraints have been placed
  on the use of the resources either (a) externally imposed by creditors, grantors,
  contributors, or laws or regulations of other governments, or (b) imposed by law
  through constitutional provisions or enabling legislation.

- Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by the County's highest level of decisionmaking authority (Commissioners Court resolution). These amounts cannot be used for any other purpose unless the Commissioners Court removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.
- Assigned: This classification includes amounts that are constrained by the County's
  intent to be used for a specific purpose but are neither restricted nor committed. This
  intent can be expressed by the Commissioners Court.
- Unassigned: This classification includes the residual fund balance for the General Fund.
  The unassigned classification also includes negative residual fund balance of any other
  governmental fund that cannot be eliminated by offsetting of assigned fund balance
  amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds

#### 9. Net Position

Net position represents the difference between assets, deferred outflows (inflows) of resources, and liabilities. Net position investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

#### 10. Deficit Fund Equity

As of September 30, 2021, Elections, Juvenile Probation, and Adult Probation funds had a negative fund balance of \$7,942, \$47,821, and \$10,587, respectively. The fund deficit is the result of revenues falling short of the levels expected when the budget was approved. The year-end deficit will be made up by providing supplemental funding from the General Fund by the County.

#### 11. Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual amounts could differ from those estimates.

#### 12. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expenses, information about the Fiduciary Net Position of the Texas County and District Retirement System (TCDRS) and additions to/deductions from TCDRS's Fiduciary Net Position have been determined on the same basis as they are reported by TCDRS. For this purpose, plan contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### 13. Other Post-Employment Benefits

Retiree Health Plan. For purposes of measuring the total OPEB liability, OPEB related deferred outflows and inflows of resources, and OPEB expense, benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Contributions are not required but are measured as payments by the County for benefits due and payable that are not reimbursed by plan assets. Information regarding the County's total OPEB liability is obtained from a report prepared by a consulting actuary.

#### II. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES

#### A. Deposits and Investments

### Legal and Contractual Provisions Governing Deposits and Investments

The funds of the County must be deposited and invested under the terms of a contract, the contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping and trust with the County's agent bank in an amount sufficient to protect County funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

The Public Funds Investment Act (Government Code Chapter 2256) (the "Act") contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the County to adopt, implement, and publicize an investment policy. That policy must address the following areas: safety of principal and liquidity, portfolio diversification, allowable investments, acceptable risk levels, expected rates of return, maximum allowable stated maturity of portfolio investments, maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, investment staff quality and capabilities, and bid solicitation preferences for certificates of deposit.

Statutes authorize the County to invest in: obligations of the U. S. Treasury, certain U. S. agencies, and the State of Texas, certificates of deposit, certain municipal securities, money market savings accounts, repurchase agreements, bankers' acceptances, mutual funds, investment pools, guaranteed investment contracts, and common trust funds.

#### **Policies Governing Deposits and Investments**

In compliance with the Act, the County has adopted a deposit and investment policy. That policy addresses the following risks:

Custodial Credit Risk – Deposits: This is the risk that in the event of bank failure, the County's deposits may not be returned to it. The County was not exposed to custodial credit risk since its deposits at year-end and during the year ended September 30, 2021, were covered by depository insurance or by pledged collateral held by the County's agent bank in the County's name.

**Custodial Credit Risk – Investments:** This is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments are subject to custodial credit risk only if they are evidenced by securities that exist in physical or book entry form. Thus, positions in external investment pools are not subject to custodial credit risk because they are not evidenced by securities that exist in physical or book entry form.

TexPool has a redemption notice period of one day and may redeem daily. The investment pool's authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, general banking moratorium or national state of emergency that affects the pool's liquidity.

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant observable inputs other than quoted market prices for similar assets; and Level 3 inputs are significant unobservable inputs. As of September 30, 2021, the County held the following fair value measurements:

		Fair V	alue Measureme	ent Using	Weighted Average
	9/30/2021	(Level 1)	(Level 2)	(Level 3)	Maturity (Days)
Investments measured at net asset value per share: Investment pools: TexPool	\$ 7,302,274	\$ -	\$ -	\$ -	34
Investments by fair value: Money markets, commercial paper, and CDs	2,167,720	<del>-</del>	2,167,720		_ 335
Total reporting entity	\$ 9,469,994	\$	\$2,167,720	\$	_ 201

The County's fair value investments totaling \$2,167,720 were valued using the present value of expected future cash flow model.

#### B. Property Taxes

Property taxes are levied by October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Legislation was passed in 1979 and amended in 1981 by the Texas Legislature that affects the methods of property assessment and tax collection in the County. This legislation, with certain exceptions, exempts intangible personal property, household goods and family-owned automobiles from taxation. In addition, this legislation creates a "Property Tax Code" and provides, among other things, for the establishment of County-wide appraisal districts and for the State Property Tax board which commenced operation in January 1980.

As of October 1, 1981, the appraisal of property within the County was the responsibility of the Lampasas County Appraisal District (the "Appraisal District"). The Appraisal District is required under the Property Tax Code to assess all property within the Appraisal District on the basis of 100% of its appraised value and is prohibited from applying any assessment ratios. Beginning January 1, 1984, the value of property within the Appraisal District must be reappraised every three years. The County may challenge appraised values established by the Appraisal District through various appeals and, if necessary, legal action. Under this legislation, the County continues to set tax rates on County property.

However, if the effective tax rates for bonds and other contractual obligations and adjusted for new improvements exceeds the rate for the previous year by more than 8%, qualified voters of the County may petition for an election to determine whether to limit the tax rate to no more than 8% above the effective tax rate of the previous year.

Through a contractual arrangement with the County, the Appraisal District is responsible for the collection of taxes. The Appraisal District is governed by a Board of Directors elected by the governing bodies of the taxing entities within the District. The Board of Directors appoints a Chief Appraiser to act as Chief Administrator of the Appraisal District and an Appraisal Review Board to equalize appraised values.

The County is permitted by Article 8, Section 9 of the State of Texas Constitution to levy taxes up to \$0.80 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation long-term debt. A practical limitation on taxes levied for debt service is \$1.50 per \$100 of assessed valuation as established by the Attorney General of the State of Texas. The adopted tax rate for the fiscal year ended September 30, 2021, was \$.48869 per \$100 valuation for maintenance and operations, \$.1235 per \$100 valuation for road and bridge, and \$.1005 per \$100 valuation for debt service.

The County's taxes on real property are a lien against such property until paid. The County may foreclose real property upon which it has a lien for unpaid taxes. Although the County makes little effort to collect delinquent taxes through foreclosure proceedings, delinquent taxes on property not otherwise collected are generally paid when there is a sale or transfer of the title on property.

#### C. Interfund Balances and Activity

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds." Interfund receivables and payables at September 30, 2021, consisted of the following:

Receivable Fund	Payable Fund		Amount
General fund Road and bridge	Construction General fund	\$	3,110 59,392
Nonmajor governmental funds Nonmajor governmental funds Nonmajor governmental funds	Fiduciary funds General fund Nonmajor governmental funds		66,093 331,004 3,864
Fiduciary funds	General fund	_	4,294
	Total	\$	467,757

Interfund receivable balances for the General Fund are created for administrative purposes in disbursing payments to outside sources. Interfund balances are also created by short-term deficiencies in cash position in agency funds. The General Fund owes other funds for road and bridge, county records management, county clerk records management, and other expenditures. It is anticipated that the balances will be repaid in one year or less. Similar transactions such as this also exist between the primary government and the agency funds.

Interfund activity at September 30, 2021, consisted of the following to supplement fund resources, and other miscellaneous transfers to supplement fund resources:

Transfers In	Transfers Out	 Amount
General fund	Road and bridge	\$ 29,337
General fund	Nonmajor governmental funds	35,000
Nonmajor governmental funds	General fund	 479,700
		1
Total		\$ 544,037

Interfund transfers to the General Fund from other funds are for operating and administrative allocations. Transfers from the General Fund were used to cover election and juvenile probation expenditures that are not expected to be reimbursed.

#### D. Receivables and Allowance for Uncollectible Accounts

Receivables as of year-end for the governmental activities, individual major governmental funds and other governmental funds, including the applicable allowances for uncollectible accounts, were as follows:

		General	 oad and Bridge	 Debt Service		Total
Property taxes receivable Sales taxes Court fines receivable Less: allowance for	\$	507,409 221,968 2,166,216	\$ 133,808	\$ 91,010 - -	\$	732,227 221,968 2,166,216
uncollectibles	<u></u>	1,912,760)	 37,987)	 25,838)	_	1,976,585)
Net accounts receivable	\$	982,833	\$ 95,821	\$ 65,172	\$	1,143,826

## E. Capital Assets

Capital asset activity for the year ended September 30, 2021, was as follows:

	Beginning Balance	Additions	Deletions	Adjustments	Ending Balance	
Governmental activities: Capital assets, not being depreciated:						
Land	\$ 1,397,393	\$ -	\$ -	\$ - / 10 337 800\	\$ 1,397,393

# F. Long-term Liabilities

Capital lease obligations consist of the following at September 30, 2021:

	Total Outstanding
Capital lease payable to a finance company for the purchase of a vehicle. Payments are due in annual installments of \$15,160, including interest at 3.900%. Final maturity October 2023.	
	42,094
Capital lease payable to a finance company for the purchase of 1 Tractor and 1 Reclaimer. Payments are due in annual installments of \$35,640, including interest at 2.59%. Final maturity April 2025.	
	133,684
Capital lease payable to a finance company for the purchase of a motor grader. Payments are due in annual installments of \$61,049, including interest at 3.85%. Final maturity December	
2022.	115,392
Total capital lease obligations	\$ 291,170

The County's direct borrowings (capital leases) are secured with equipment as collateral. The future minimum lease obligations and the net present value of these minimum lease payments as of September 30, 2021 were as follows:

Year ending September 30	ernmental ctivities
2022 2023 2024 2025	\$ 111,849 111,848 50,799 35,641
Total minimum lease payments Less: amounts representing interest	 310,137 18,967)
Present value of minimum lease payments	\$ 291,170
The assets acquired through capital leases are as follows:	
Equipment Accumulated depreciation	\$ 922,852 549,688)
Equipment, net	\$ 373,164

In the event of default, the outstanding principal balance of the note shall accrue interest at a rate per annum equal to eighteen percent until the note is paid in full. The lender is also entitled, at its option, to declare the then principal and accrued interest immediately due.

Bonds consist of the following at September 30, 2021:

	01	Total utstanding
\$3,015,000 Limited Tax Refunding Bonds, Series 2016, used for the purpose of providing funds to refund the Limited Tax Refunding Bonds, Series 2011 and to pay issuance costs associated with the bonds. The bonds are payable from the proceeds of an ad valorem tax levied upon all taxable property within the County's taxing authority. The bonds bear interest at 2.00 - 3.00% per annum through February 15, 2024. Principal payments begin February 15, 2017 and are payable in annual installments of \$250,000 to \$585,000 through February 15, 2021.	\$	795,000
\$8,685,000 Limited Tax General Obligation Bonds, Series 2017, used for the purpose of (1) constructing, improving and equipping a County jail facility including the acquisition of any necessary sites; (2) constructing, improving and equipping a County sheriff's office, including the acquisition of any necessary sites and (3) professional services including fiscal, engineering, architectural and legal fees and other such costs incurred in connection therewith including the costs of issuing the Bonds. The bonds are payable from the proceeds of an ad valorem tax levied upon all taxable property within the County's taxing authority. The bonds bear interest at 2.00 - 4.00% per annum through August 15, 2031. Principal payments begin February 15, 2018 and are payable in annual installments of \$80,000 to \$565,000 through February 15, 2031.		8,020,000
\$8,740,000 Limited Tax General Obligation Bonds, Series 2018, used for the purpose of (1) constructing, improving and equipping a County jail facility including the acquisition of any necessary sites; (2) constructing, improving and equipping a County sheriff's office, including the acquisition of any necessary sites and (3) professional services including fiscal, engineering, architectural and legal fees and other such costs incurred in connection therewith including the costs of issuing the Bonds. The bonds are payable from the proceeds of an ad valorem tax levied upon all taxable property within the County's taxing authority. The bonds bear interest at 4.00% per annum through February 15, 2038. Principal payments begin February 15, 2020 and are payable in annual installments of \$100,000 to \$1,400,000 through February 15, 2038.		8,335,000
Total Total	\$	17,150,000

The following table summarizes the annual debt service requirements of the outstanding bonds at September 30, 2021, to maturity:

Year Ending		Governmental Activities				
September 30,		Principal	oal Interest			Total
2022 2023 2024 2025 2026 2027-2031 2032-2036	\$	770,000 800,000 825,000 805,000 830,000 4,695,000 5,750,000		663,925 635,125 605,325 574,100 541,400 2,170,300 1,128,400	\$	1,433,925 1,435,125 1,430,325 1,379,100 1,371,400 6,865,300 6,878,400
2037-2041	******	2,675,000	_	109,500	_	2,784,500
Total	\$	17,150,000	\$	6,428,075	\$	23,578,075

#### Changes in Long-term Liabilities

Changes in long-term liabilities for the year ended September 30, 2021, are as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Bonds	\$ 17,805,000	\$ -	\$ 655,000	\$ 17,150,000	\$ 770,000
Premium on bonds	1,427,362		95,456	1,331,906	-
Capital leases	813,565	-	522,395	291,170	102,231
Notes payable	57,101	-	57,101	_	-
Compensated absences	106,745	114,481	114,442	106,784	21,357
Total long-term					
liabilities	\$ <u>20,209,773</u>	\$ <u>114,481</u>	\$ <u>1,444,394</u>	\$ <u>18,879,860</u>	\$ <u>893,588</u>

If the County were to default on any bonds, any registered owner of the obligations is entitled to seek a writ of mandamus from a court of proper jurisdiction requiring the County to make a payment.

Compensated absences are generally liquidated by the General Fund.

#### III. OTHER INFORMATION

#### A. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which it carries commercial insurance. The County uses various commercial carriers to insure against these risks. Settled claims did not exceed the coverage for any of the past three fiscal years.

#### B. Employee Health Insurance

During the year ended September 30, 2021, employees of the County were covered by a health insurance plan (the "Health Plan") through Blue Cross Blue Shield. The County paid premiums of \$811 per month per employee to the Health Plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. The County pays a portion of dependent health insurance. The Health Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement. The total cost to the County for employee health insurance during the year ended September 30, 2021, was \$1,059,351.

#### C. Other Postemployment Benefits (OPEB)

#### Retiree Health Plan

#### Plan Description

Employees can maintain coverage in the County "Health Plan" at the same level at retirement by paying 100% of the premium. Coverage is offered until the retiree reaches Medicare eligibility. Spouses can have coverage by paying 100% of the premium for the same period as the retiree. The "Health Plan" only includes medical care and does not cover dental or vision. The plan is a single-employer plan and is administered through Blue Cross Blue Shield. No separate audited financial statements are available.

Retirees are eligible to participate in the plan at the earliest of the following:

- Age 60 with 8 years of service
- 75 points (combined age + service)
- 20 years of service

The number of employees currently covered by the benefit terms is as follows:

Inactive Plan Members or Beneficiaries Currently Receiving Benefits Active Plan Members

Total

99 99

# Actuarial Methods and Assumptions

#### Significant methods and assumptions were as follows:

Actuarial Valuation Date Actuarial Cost Method Discount Rate Salary Increases	October 1, 2020 Entry Age Normal (Level %) 2.26% 3.25%
Demographic Assumptions	Based on the Texas County and District Retirement System (TCDRS) Experience Study Report dated November 15, 2017
Mortality	TCDRS Mortality follows the Sex Distinct Raw Rates as Developed in the RP-2014 Study. These Rates are Improved Generationally using 110% of the MP-2014 Ultimate Scale and Weighted Based on the TCDRS Experience Study
Participation rates	Coverage election at retirement is assumed at the following rates:
	TCDRS 20%
	If an employee has waived medical coverage, it is assumed they will elect coverage in the retiree medical color at 1/3 the rate of active employees currently with

assumed they will elect coverage in the retiree medical plan at 1/3 the rate of active employees currently with coverage. Of those employees assumed to elect coverage in retirement, 11% are assumed to elect spousal coverage. Female spouses are assumed to be 3 years younger than male spouses.

#### Health care cost trend rates

	First-Year	Initial	Ultimate	Amount Trend	Years Between	Year Utlimate
Plan	Trend	Trend	Trend	Decrease	Trend Decreases	Trend Reached
Medical	4.5%	6.0%	6.0%	N/A	N/A	2022

Projections of health benefits are based on the plan as understood by the County and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the County and its employees to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

A Single Discount Rate of 2.26% was used to measure the total OPEB liability. This Single Discount Rate was based on the Municipal Bond Rates as of the measurement date. The Municipal Bond Rate assumption is based on The Bond Buyer 20-Bond GO Index. The 20-Bond GO Index is based on an average of certain general obligation municipal bonds maturing in 20 years and having an average rating equivalent of Moody's Aa2 and Standard & Poor's AA.

#### Changes in the Total OPEB Liability

The County's total OPEB liability of \$143,693 was measured as of September 30, 2021 and was determined by an actuarial valuation as of October 1, 2020.

	Total OPEB		
		Liability	
Balance at 10/01/2020	\$	101,042	
Changes for the year:		:	
Service cost		42,592	
Interest on the total OPEB liability		2,216	
Changes in assumptions and other inputs	(	647)	
Benefit payments	<u>(                                     </u>	1,510)	
Net changes		42,651	
Balance at 9/30/2021	\$	143,693	

Changes in assumptions and other inputs reflect a change in the discount rate from 2.21% to 2.26%.

#### Discount Rate Sensitivity Analysis

The following schedule shows the impact of the total OPEB liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (2.26%) in measuring the total OPEB liability.

	 Decrease in nt Rate (1,26%)	Discour	Current nt Rate (2.26%)	1% Increase in count Rate (3.26%)
County's total OPEB liability	\$ 156,965	\$	143,693	\$ 131,217

#### Healthcare Cost Trend Rate Sensitivity Analysis

The following schedule shows the impact of the total OPEB liability if the Healthcare Cost Trend Rate used was 1% less than and 1% greater than what was used in measuring the total OPEB liability.

	1	% Decrease	Current Healthcare Cost Trend Rate Assumption			1% Increase
County's total OPEB liability	\$	117,485	\$	143,693	. \$	175,949

#### OPEB Expense and Deferred Outflows and Inflows of Resources Related to OPEB

For the year ended September 30, 2021, the County recognized OPEB expense of \$40,683. At September 30, 2021, the County reported deferred outflows and inflows of resources related to OPEB from the following sources:

		rred Outflows Resources	Deferred Inflows of Resources		
Differences between expected and actual experience Changes in actuarial assumptions	\$	- 31,639	\$	53,024 5,41 <u>0</u>	
Total	\$	31,639	\$ <u> </u>	58,434	

Amounts reported as deferred outflow and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

For the Year		
Ended September 30,		
2022	\$(	4,125)
2023	(	4,125)
2024	(	4,125)
2025	(	4,125)
2026	(	4,125)
Thereafter	(	6,170)

#### D. <u>Defined Benefit Pension Plan</u>

**Plan Description.** The County participates in a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System ("TCDRS"). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent, multiple-employer, public employee retirement system consisting of nontraditional defined benefit pension plans. TCDRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tcdrs.org.

All full and part-time non-temporary employees participate in the plan, regardless of the number of hours they work in a year. Employees in a temporary position are not eligible for membership.

**Benefits Provided.** TCDRS provides retirement, disability and survivor benefits for all eligible employees. Benefit terms are established by the TCDRS Act. The benefit terms may be amended as of January 1, each year, but must remain in conformity with the Act.

Members can retire at age 60 and above with 8 or more years of service, with 20 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after eight years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. Be law, employee accounts earn 7% interest. At retirement, death or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

## Employees covered by benefit terms

At the December 31, 2020, valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	99
Inactive employees entitled to but not yet receiving benefits	66
Active employees	97
	262

**Contributions.** The contribution rates for employees in TCDRS are either 4%, 5%, 6%, or 7% of employee gross earnings, as adopted by the employer's governing body. Participating employers are required to contribute at actuarially determined rates to ensure adequate funding for each employer's plan. Under the state law governing TCDRS, the contribution rate for each entity is determined annually by the actuary and approved by the TCDRS Board of Trustees. The replacement life entry age actuarial cost method is used in determining the contribution rate. The actuarially determined rate is the estimated amount necessary to fund benefits in an orderly manner for each participate over his or her career so that sufficient funds are accumulated by the time benefit payments begin, with an additional amount to finance any unfunded accrued liability.

Employees for the County were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rate for the County was 16.00% in calendar years 2020 and 2021, respectively. The County's contributions to TCDRS for the year ended September 30, 2021, were \$755,358, and were equal to the required contributions.

Net Pension Liability. The County's Net Pension Liability (NPL) was measured as of December 31, 2020, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

#### Actuarial Assumptions

The Total Pension Liability in the December 31, 2020, actuarial valuation was determined using the following actuarial assumptions:

Inflation

2.50% per year

Overall payroll growth

2.75% per year

Investment rate of return

7.5%, net of pension plan investment expense, including inflation

Mortality rates for active members, retirees, and beneficiaries were based on the following:

Depositing members

90% of the RP-2014 Active Employee Mortality Table for males and 90% of the RP-2014 Active Employee Mortality Table for females, projected with 110% of

the MP-2014 Ultimate scale after 2014.

Service retirees, beneficiaries and non-depositing members

130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected

with 110% of the MP-2014 Ultimate scale after 2014.

Disabled retirees

130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.

Updated mortality assumptions were adopted in the actuarial valuation of December 31, 2019. All other actuarial assumptions that determined the total pension liability as of December 31, 2020, were based on the results of an actuarial experience study for the period January 1, 2013 through December 31, 2016.

The long-term expected rate of return on pension plan investments is 7.6%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TCDRS Board of Trustees.

The long-term expected rate of return on TCDRS is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information below are based on January 2021 information for a 10-year time horizon. The valuation assumption for long-term expected return is re-assessed at a minimum of every four years and is set based on a long-term time horizon; the most recent analysis was performed in March 2021.

The target allocation and best estimates of geometric real rates return for each major assets class are summarized in the following table:

Asset Class	Benchmark	Target Allocation (1)	Geometric Real Rate of Return (Expected minus Inflation) (2)
US Equities	Dow Jones U.S. Total Stock Market Index	11.50%	4.25%
Private Equity	Cambridge Associates Global Private Equity & Venture Capital Index <sup>(3)</sup>	25.00%	7.25%

 $<sup>^{(1)}</sup>$  Target asset allocation adopted at the March 2021 TCDRS Board meeting.

#### Discount Rate

The discount rate used to measure the Total Pension Liability was 7.6%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statue. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the Total Pension Liability.

<sup>(2)</sup> Geometric real rates of return in addition to assumed inflation of 2.0% per Cliffwater's 2021 capital market assumptions.

<sup>(3)</sup> Includes vintage years 2006-present of Quarter Pooled Horizon IRRs.

<sup>(4)</sup> Includes vintage years 2005-present of Quarter Pooled Horizon IRRs.

<sup>(5)</sup> Includes vintage years 2007-present of Quarter Pooled Horizon IRRs.

#### Sensitivity Analysis

The following presents the net pension liability of the County, calculated using the discount rate of 7.6%, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.6%) or 1-percentage-higher (8.6%) than the current rate:

		Current	
	1% Decrease	Discount Rate	1% Increase
	6.6%	7.6%	8.6%
Total pension liability	\$ 28,725,253	\$ 25,626,023	\$ 23,008,907
Fiduciary net position	<u>22,982,610</u>	22,982,610	22,982,610
Net pension liability	\$ <u>5,742,643</u>	\$ <u>2,643,413</u>	\$ <u>26,297</u>

## Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TCDRS financial report. The report may be obtained on the Internet at <u>www.tcdrs.org</u>.

<sup>(2)</sup> Relates to allocation of system-wide items.

#### Pension Expense and Deferred Outflows of Resources Related to Pensions

For the year ended September 30, 2021, the County recognized pension expense of \$898,792. At September 30, 2021, the County reported deferred outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources			eferred Inflows Resources
Differences between expected and actual economic experience		260.061	#	
'	\$	269,061	\$	-
Changes in actuarial assumptions  Difference between projected and actual investment		882,911		-
earnings		-		784,450
Contributions subsequent to the measurement date		559,794		
Total	\$	1,711,766	\$	784,450

\$559,794, reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability for the year ending September 30, 2022. Other amounts reported as deferred outflows of resources related to pensions will be recognized in pension expenses as follows:

For the Year Ended		
September 30,		
2022	\$	337,852
2023		534,653
2024	(	407,887)
2025	ĺ	97.096)

#### E. New Accounting Principles

Significant new accounting standard not yet implemented by the County includes the following.

Statement No. 87, Leases – This statement changes the recognition requirements for certain lease assets and liabilities for leases that are currently classified as operating leases. This statement will become effective for the County in fiscal year 2022.

Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period – The objectives of this statement are to (1) enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This statement will become effective for the County in fiscal year 2022.

Statement No. 91, Conduit Debt Obligations - The Statement provides a single method of reporting conduit debt obligation by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. GASB 91 will be implemented by the County in fiscal year 2023 and the impact has not yet been determined.

Statement No. 92, *Omnibus 2020* – The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. GASB 92 will be implemented by the County in fiscal year 2022 and the impact has not yet been determined.

rate (IBOR)-most notably, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate. GASB 93 will be implemented by the County in fiscal year 2022 and the impact has not yet been determined.

Statement No. 94, Public-Private and Public-Private Partnerships and Availability Payment Arrangements – The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). GASB 94 will be implemented by the County in fiscal year 2023 and the impact has not yet been determined.

Statement No. 96, Subscription-Based Technology Arrangements – this Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended. GASB 96 will be implemented by the County in fiscal year 2023 and the impact has not yet been determined.

Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32. – The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. GASB 97 will be implemented by the County in fiscal year 2022 and the impact has not yet been determined.

#### F. Prior Period Adjustment

In the current fiscal year, fiduciary net position was restated by \$763,073 due to the implementation of Governmental Accounting Standards Board (GASB) Statement Number 84, Fiduciary Activities.

# NOTES TO SCHEDULE OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL

SEPTEMBER 30, 2021

#### A. BUDGETARY DATA

The County follows these procedures in establishing the budgetary data reflected in the Schedules of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual for the General Fund and Road and Bridge Fund:

- 1. The County Judge, as budget officer, with the assistance of the County Auditor, prepares a budget to cover all proposed expenditures and the means of financing them for the succeeding year, and delivers the proposed budget to Commissioners' Court.
- 2. The County Auditor holds budget sessions with each department head.
- 3. The Commissioners' Court holds budget hearings for the public at which all interested persons' comments concerning the budget are heard.
- 4. The Commissioners' Court formally adopts the budget in the open court meeting.
- 5. The adopted budget becomes the authorization for all legal expenditures for the County for the fiscal year. Appropriations lapse at the end of the fiscal year.
- 6. The formally adopted budget may legally be amended by Commissioners in accordance with Article 689A-11 or 689A-20 of Vernon's Annotated Civil Statutes.
- 7. Annual budgets are legally adopted for the General Fund, the Road and Bridge Fund, the Debt Service Fund and the Juvenile Probation Fund. The budgets are adopted on a basis consistent with generally accepted accounting principles.
- 8. An appropriate resolution (the appropriated budget) to control the level of expenditures must be legally enacted on or about October 1. The County maintains its legal level of budgetary control at the department level. Amendments to the 2021 budget were approved by the Commissioners' Court as provided by law.
- 9. Unencumbered appropriation balances lapse at year-end and revert to the respective funds from which they were originally appropriated, thus becoming available for future appropriation.

2021		755,358		755,358		-		4,720,989		16.0%

Note: This schedule is required to have 10 years of information, but the information prior to 2014 is not available.

#### NOTES TO SCHEDULE OF EMPLOYER CONTRIBUTIONS

#### FOR THE YEAR ENDED SEPTEMBER 30, 2021

**Valuation Timing** 

Actuarially determined contribution rates are calculated each December 31, two years prior to the end of the fiscal year in which the contributions are reported.

Methods and assumptions used to determine contributions rates:

Actuarial Cost Method

Amortization Method

**Remaining Amortization Period** 

Asset Valuation Method

Inflation

Salary Increases

Investment Rate of Return

Threstment Rate of Return

Retirement Age

Mortality

Changes in Assumptions and Methods Reflected in the Schedule of Employer

Contributions

Changes in Plan Provisions Reflected in the Schedule of Employer

Contributions

Entry age

Level percentage of payroll, closed

20 years (based on contribution rate calculated in 12/31/2020

valuation)

5-year smoothed market

2.50%

Varies by age and service. 4.6% average over career including

inflation.

7.50%, net of administrative and investment expenses,

including inflation.

Members who are eligible for service retirement are assumed to commence receiving benefit payments based on age. The

average age at service retirement for recent retirees is 61.

130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014

Ultimate scale after 2014.

2015: New inflation, mortality and other assumptions were reflected. 2017: New mortality assumptions were reflected. 2019: New inflation, mortality and other assumptions were

reflected.

2015: Employer contributions reflect that at 50% CPI COLA was adopted. 2016: No changes in plan provisions. 2017: New Annuity Purchase Rates were reflected for benefits earned after

2017. 2018-2020: No changes in plan provisions were reflected

in the Schedule.

#### SCHEDULE OF CHANGES IN TOTAL OPEB LIABILITY AND RELATED RATIOS RETIREE HEALTH CARE BENEFIT PLAN

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable County Judge and Commissioners' Court of Lampasas County Lampasas, Texas

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lampasas County, Texas as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise Lampasas County, Texas' basic financial statements, and have issued our report thereon dated August 31, 2022.

## Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lampasas County, Texas' internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lampasas County, Texas' internal control. Accordingly, we do not express an opinion on the effectiveness of Lampasas County, Texas' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

# Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lampasas County, Texas' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Patillo, Brown & Hill, L.L.P.

Waco, Texas August 31, 2022
