

**Media Release from Lampasas County Judge Randy Hoyer
February 11, 2021**

On February 10, 2021, I received notification from the Texas Department of State Health Services that Trauma Service Area L, which includes Lampasas County, has, for seven consecutive days had less than 15 percent of COVID-19 hospitalized patients as a percentage of total hospital capacity.

Under the criteria laid out in GA-32, Trauma Service Area L no longer meets the definition of a high hospitalization area and so may reopen to the higher levels allowable under GA-32. Therefore, effective immediately, business establishments in Lampasas County may operate at up to 75 percent occupancy. Additionally, all licensed hospitals in the TSA may resume elective surgeries as set forth in Executive Order GA-32.

Local business and establishments should refer to Executive Order GA-32 for specific details regarding their operation. <https://www.dshs.texas.gov/ga32/>

While business and establishments are opening at a greater capacity, I encourage you to continue wearing a face covering in public, wash your hands, and maintain social distancing.

Randy Hoyer, Lampasas County Judge

February 9, 2021

The Honorable Randy Hoyer
Lampasas County Judge
501 E 4th Street
Lampasas, Texas 76550

Dear Judge Hoyer:

On Wednesday, October 7, 2020, Governor Abbott issued Executive Order GA-32, which superseded GA-30. Significantly, GA-32 updates the thresholds for areas with high hospitalizations.

The new definition of areas with high hospitalizations is:

Any Trauma Service Area (TSA) that has had seven consecutive days in which the number of COVID-19 hospitalized patients as a percentage of total hospital capacity exceeds 15 percent, until such time as the Trauma Service Area has seven consecutive days in which the number of COVID-19 hospitalized patients as a percentage of total hospital capacity is 15 percent or less.

Under the criteria laid out in GA-32, your Trauma Service Area, TSA L, no longer meets the definition of a high hospitalization area and so may reopen to the higher levels allowable under GA-32.

Additionally, all licensed hospitals in the TSA may resume elective surgeries as set forth in Executive Order GA-32. The Health and Human Services Commission, the agency responsible for regulating hospitals in Texas, is separately providing notice directly to affected hospitals notifying them of the ability to resume elective surgeries located in TSA L.

TSA L includes the following counties:

- Bell
- Coryell
- Hamilton
- Lampasas
- Milam
- Mills
